Open Market

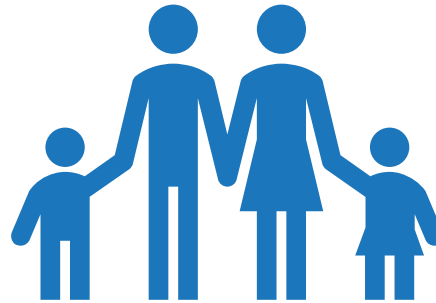

Restaurant or  
Fast Food

Street Vendor

Farmer(s)

School Feeding Programs

Food Banks

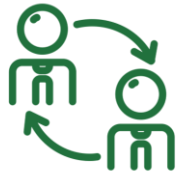

# COVID-19 impacts on how children and their families access food

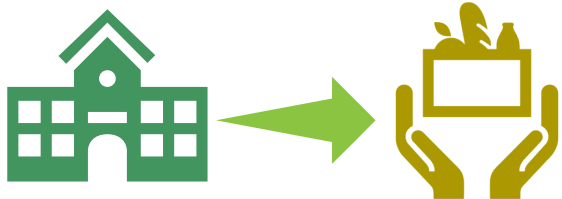

# Potential Food Bank-School Feeding Links in Crisis Response

1

School food workers redeployed to food banks when schools are closed.

2

Food banks become alternative distribution points when children and their families can't access schools

3

Joint training for school food and food bank workers on food safety, storage, handling, and nutrition.

4

Partnerships between schools and food banks to ensure vulnerable children are served during school break.

5

Joint procurement opportunities and sharing of surplus or overstocks of certain foods.

# Thank you
