Product Sourcing Part 1: Focus on Agriculture

Featuring Food Banking Kenya

300 million tonnes of fruits and vegetables produced in Sub Saharan Africa

Figure 1. Production volumes of each commodity group, per region (million tonnes)

Food losses offer opportunity for sourcing

Food loss and waste:

In sub-Saharan Africa, nearly 50% of fruit and vegetables never make it to market for consumption. This means lost income for farmers and economies.

Figure 6. Part of the initial production lost or wasted at different stages of the FSC for fruits and vegetables in different regions

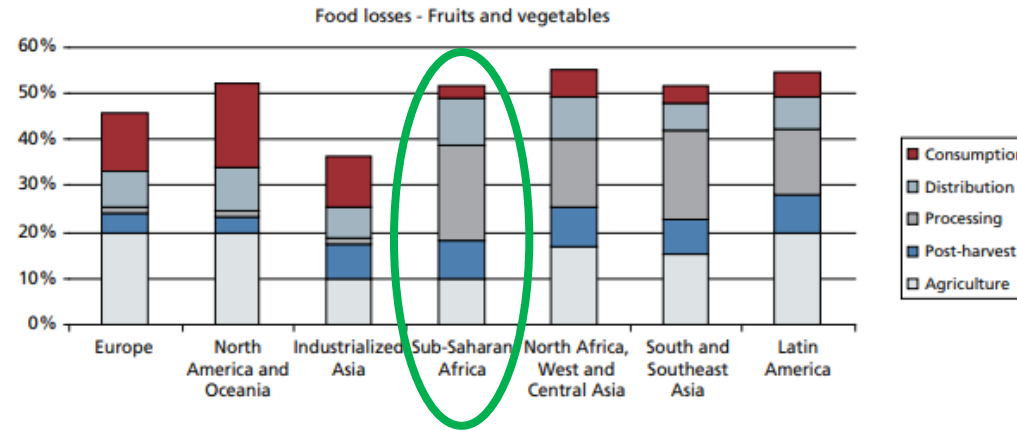

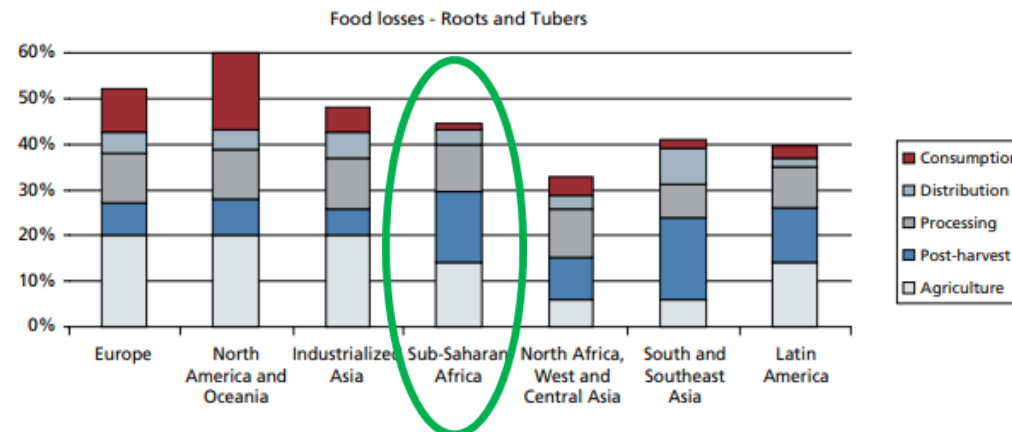

Figure 4. Part of the initial production lost or wasted at different stages of the FSC for root and tuber crops in different region

Agricultural Opportunities in Kenya

“Farmers are left with large amounts of unsellable produce,,

COMBINING GRADING-SHED REJECTIONS WITH THE FARM LEVEL REJECTS SHOWS AN AVERAGE 32.92% OF CROPS GROWN FOR EXPORT WERE REPORTED TO HAVE BEEN REJECTED BEFORE BEING SENT TO THE PACK HOUSE BECAUSE OF COSMETIC SPECIFICATIONS.

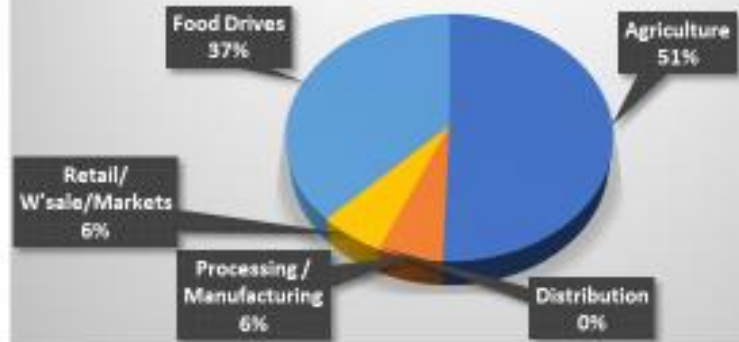

Product Sourcing and Food Loss and Waste Resources are available on GFN Box
